Table of Contents Volume 173, 1988

Number 1

J.P. Carde, B. Camara, C. Cheniclet: Absence of ribosomes in *Capsicum* chromoplasts 1

G. Høyer-Hansen, R. Bassi, L.S. Hønberg, D.J. Simpson: Immunological characterization of chlorophyll a/b-binding proteins of barley thylakoids 12

T.H. Giddings, Jr., L.A. Staehelin: Spatial relationship between microtubules and plasma-membrane rosettes during the deposition of primary wall microfibrils in *Closterium* sp. 22

J.J. Sauter, B. van Cleve, K. Apel: Protein bodies in ray cells of *Populus* × *canadensis* Moench 'robusta' . . . 31

M.K. Kandasamy, R. Kappler, U. Kristen: Plasmatubules in the pollen tubes of *Nicotiana sylvestris* 35

W. Piwowarczyk: The effect of red and far-red light on proton secretion from mesophyll-cell protoplasts of *Vicia faba* L. 42

J. Wiśniowska, K. Rudnicki, J. Leluk, J. Szopa: An endogenous RNA-synthesis-promoting oligopeptide from *Cucurbita pepto* var. *patissonina* 46

P. de la Haba, E. Agüera, J.M. Maldonado: Development of nitrogen-assimilating enzymes in sunflower cotyledons during germination as affected by the exogenous nitrogen source 52

U. Jehn, K. Zetsche: In vitro synthesis of the cyanelle proteins of *Cyanophora paradoxa* by isolated cyanelles and cyanelle RNA 58

H.A.W. Schneider-Poetsch, H. Schwarz, R. Grimm, W. Rüdiger: Cross-reactivity of monoclonal antibodies against phytochrome from *Zea* and *Avena*, Localization of epitopes, and an epitope common to monocotyledons, dicotyledons, ferns, mosses, and a liverwort 61

I. Raskin, J.A.R. Ladyman: Isolation and characterization of a barley mutant with abscisic-acid-insensitive stomata 73

S.K. Ries, V.F. Wert: Rapid elicitation of second messengers by nanomolar doses of triacontanol and octacosanol 79

T. Waldmann, W. Jeblick, H. Kauss: Induced net Ca^{2+} uptake and callose biosynthesis in suspension-cultured plant cells 88

M. Voß, M. Weidner: Uridine 5′-diphospho-D-glucose-dependent vectorial sucrose synthesis in tonoplast vesicles of the storage hypocotyl of red beet (*Beta vulgaris* L. ssp. *conditiva*) 96

A. Fusseder, P. Ziegler: Metabolism and compartmentation of dihydrozeatin exogenously supplied to photoautotrophic suspension cultures of *Chenopodium rubrum* 104

P.C. Morris, E.W. Weiler, S.E. Maddock, M.G.K. Jones, J.R. Lenton, D.J. Bowles: Determination of endogenous abscisic acid levels in immature cereal embryos during in vitro culture 110

D.B. Layzell, S.T. Gaito, S. Hunt: Model of gas exchange and diffusion in legume nodules. I. Calculation of gas exchange rates and the energy cost of N_2 fixation . . 117

S. Hunt, S.T. Gaito, D.B. Layzell: Model of gas exchange and diffusion in legume nodules. II. Characterisation of the diffusion barrier and estimation of the concentrations of CO_2, H_2 and N_2 in the infected cells . . 128

W. Hensel: Demonstration by heavy-meromyosin of actin microfilaments in extracted cress (*Lepidium sativum* L.) root statocytes (*Short communication*) 142

Number 2

D.J. Bradley, E.A. Wood, A.P. Larkins, G. Galfre, G.W. Butcher, N.J. Brewin: Isolation of monoclonal antibodies reacting with peribacteroid membranes and other components of pea root nodules containing *Rhizobium leguminosarum* 149

K.S. Gould, E.M. Lord: Growth of anthers in *Lilium longiflorum*. A kinematic analysis 161

K. Denyer, A.M. Smith: The capacity of plastids from developing pea cotyledons to synthesise acetyl CoA 172

R.A. Balsamo, E.G. Uribe: Leaf anatomy and ultrastructure of the Crassulacean-acid-metabolism plant *Kalanchoe daigremontiana* 183

R.A. Balsamo, E.G. Uribe: Plasmalemma- and tonoplast-ATPase activity in mesophyll protoplasts, vacuoles and microsomes of the Crassulacean-acid-metabolism plant *Kalanchoe daigremontiana* 190

W. Jahnen, K. Hahlbrock: Cellular localization of non-host resistance reactions of parsley (*Petroselinum crispum*) to fungal infection 197

K. Humbeck, B. Hoffmann, H. Senger: Influence of energy flux and quality of light on the molecular organization of the photosynthetic apparatus in *Scenedesmus* 205

P. Nick, E. Schäfer: Interaction of gravi- and phototropic stimulation in the response of maize (*Zea mays* L.) coleoptiles 213

L.A. Kleczkowski, D.D. Randall: Purification and characterization of D-glycerate-3-kinase from maize leaves 221

A. Laisk, H. Pfanz, M.J. Schramm, U. Heber: Sulfur-dioxide fluxes into different cellular compartments of leaves photosynthesizing in a polluted atmosphere. I. Computer analysis 230

A. Laisk, H. Pfanz, U. Heber: Sulfur-dioxide fluxes into different cellular compartments of leaves photosynthesizing in a polluted atmosphere. II. Consequences of SO_2 uptake as revealed by computer analysis . . . 241

T.-H. Chen, T.-C. Huang, T.-J. Chow: Calcium requirement in nitrogen fixation in the cyanobacterium *Synechococcus* RF-1 253

S. Baroncelli, A. Cavallini, B. Lercari, P.G. Cionini, F. D'Amato: Effect of light and gibberellic acid on cell division in the first foliage leaf of durum wheat (*Triticum durum* Desf.) 257

D.R. Thomas, C. Wood, M. Masterson: Long-chain acyl CoA synthetase, carnitine and β-oxidation in the pea-seed mitochondrion 263

U. Heber, S. Neimanis, K.-J. Dietz: Fractional control of photosynthesis by the Q_B protein, the cytochrome f/b_6 complex and other components of the photosynthetic apparatus 267

D. Loske, K. Raschke: Determination of carbon-reduction-cycle intermediates in leaves of *Arbutus unedo* L. suffering depressions in photosynthesis after application of abscisic acid or exposure to dry air 275

R. Kaur-Sawhney, A.F. Tiburcio, A.W. Galston: Spermidine and flower-bud differentiation in thin-layer explants of tobacco (*Short communication*) 282

Number 3

C. Sautter, G. Keller, B. Hock: Glyoxysomal citrate synthase from watermelon cotyledons: Immuno-cytochemical localization and heterologous translation in *Xenopus* oocytes 289
S. Rawsthorne, C.M. Hylton, A.M. Smith, H.W. Woolhouse: Photorespiratory metabolism and immunogold localization of photorespiratory enzymes in leaves of C_3 and C_3-C_4 intermediate species of *Moricandia* . . 298
G. Griffiths, S. Stymne, A.K. Stobart: The utilisation of fatty-acid substrates in triacylglycerol biosynthesis by tissue-slices of developing safflower (*Carthamus tinctorius* L.) and sunflower (*Helianthus annuus* L.) cotyledons 309
R. Federico, R. Angelini: Distribution of polyamines and their related catabolic enzyme in etiolated and light-grown Leguminosae seedlings 317
P. Perata, F. LoSchiavo, A. Alpi: Ethanol production and toxicity in suspension-cultured carrot cells and embryos 322
S.A. Quarrie, P.N. Whitford, N.E.J. Appleford, T.L. Wang, S.K. Cook, I.E. Henson, B.R. Loveys: A monoclonal antibody to (S)-abscisic acid: Its characterisation and use in a radioimmunoassay for measuring abscisic acid in crude extracts of cereal and lupin leaves 330
F.S. Chapin, III, D.T. Clarkson, J.R. Lenton, C.H.S. Walter: Effect of nitrogen stress and abscisic acid on nitrate absorption and transport in barley and tomato 340
F.S. Chapin, III, C.H.S. Walter, D.T. Clarkson: Growth response of barley and tomato to nitrogen stress and its control by abscisic acid, water relations and photosynthesis 352
D. Buffard, P.-A. Kaminski, A.D. Strosberg: Lectin-gene expression in pea (*Pisum sativum* L.) roots 367
J. Voigt: The lithium-chloride-soluble cell-wall layers of *Chlamydomonas reinhardii* contain several immunologically related glycoproteins 373
A.B. Bleecker, G. Robinson, H. Kende: Studies on the regulation of 1-aminocyclopropane-1-carboxylate synthase in tomato using monoclonal antibodies . . . 385
I. Dahse, H. Schnabl, R. Hampp, H. Ziegler, E. Müller, B. Liebermann: Inhibition of light-induced stomatal opening and of guard-cell-protoplast swelling in *Vicia faba* L. by tentoxin, an inhibitor of photophosphorylation 391
A.D. Parry, S.J. Neill, R. Horgan: Xanthoxin levels and metabolism in the wild-type and wilty mutants of tomato 397
A. Puppo, B. Halliwell: Generation of hydroxyl radicals by soybean nodule leghaemoglobin 405
C.J. Chastain, R. Chollet: Incorporation of $^{14}CO_2$ into C_4 acids by leaves of C_3-C_4 intermediate and C_3 species of *Moricandia* and *Panicum* at the CO_2 compensation concentration 411
J.G. Dong, S. Satoh, T. Fujii: Variation in endoplasmic-reticulum-associated glycoproteins of carrot cells cultured in vitro 419
F.R. Vale, R.J. Volk, W.A. Jackson: Simultaneous influx of ammonium and potassium into maize roots: Kinetics and interactions 424

Number 4

C.E.J. Botha, R.F. Evert: Plasmodesmatal distribution and frequency in vascular bundles and contiguous tissues of the leaf of *Themeda triandra* 433
Y. Goto, K. Ueda: Microfilament bundles of F-actin in *Spirogyra* observed by fluorescence microscopy . . 442
F. Erath, W.A. Ruge, W.-E. Mayer, R. Hampp: Isolation of functional extensor and flexor protoplasts from *Phaseolus coccineus* L. pulvini: potassium induced swelling 447
W. Jahnen, K. Hahlbrock: Differential regulation and tissue-specific distribution of enzymes of phenylpropanoid pathways in developing parsley seedlings 453
C.R. Ireland, A. Telfer, P.S. Covello, N.R. Baker, J. Barber: Studies on the limitations to photosynthesis in leaves of the atrazine-resistant mutant of *Senecio vulgaris* L. 459
M. Miginiac-Maslow, G. Cornic, J.-P. Jacquot: Effect of high light intensities on oxygen evolution and the light activation of NADP-malate dehydrogenase in intact spinach chloroplasts 468
A. Nisius: The stromacentre in *Avena* plastids: an Aggregation of β-glucosidase responsible for the activation of oat-leaf saponins 474
M.A. Mansfield, W.J. Peumans, N.V. Raikhel: Wheat-germ agglutinin is synthesized as a glycosylated precursor 482
H. Kataoka, M.H. Weisenseel: Blue light promotes ionic current influx at the growing apex of *Vaucheria terrestris* 490
G.I. McFadden, B. Ahluwalia, A.E. Clarke, G.B. Fincher: Expression sites and developmental regulation of genes encoding $(1 \rightarrow 3,1 \rightarrow 4)$-$\beta$-glucanases in germinated barley 500
G.E. Schaller, M.R. Sussman: Phosphorylation of the plasma-membrane H^+-ATPase of oat roots by a calcium-stimulated protein kinase 509
C.A. Labate, R.C. Leegood: Limitation of photosynthesis by changes in temperature: factors affecting the response of carbon-dioxide assimilation to temperature in barley leaves 519
W. Lahr, K. Raschke: Abscisic-acid contents and concentrations in protoplasts from guard cells and mesophyll cells of *Vicia faba* L. 528
L. Beerhues, R. Wiermann: Chalcone synthases from spinach (*Spinacia oleracea* L.). I. Purification, peptide patterns, and immunological properties of different forms 532
L. Beerhues, H. Robenek, R. Wiermann: Chalcone synthases from spinach (*Spinacia oleracea* L.). II. Immunofluorescence and immunogold localization 544
J. Frensch, E.-D. Sculze: The effect of humidity and light on cellular water relations and diffusion conductance of leaves of *Tradescantia virginiana* L. 554
J. Smarrelli, Jr., D. Castignetti: Iron assimilation in plants: reduction of a ferriphytosiderophore by NADH: nitrate reductase from squash (*Short communication*) 563
